

REMINISCENCE
1985

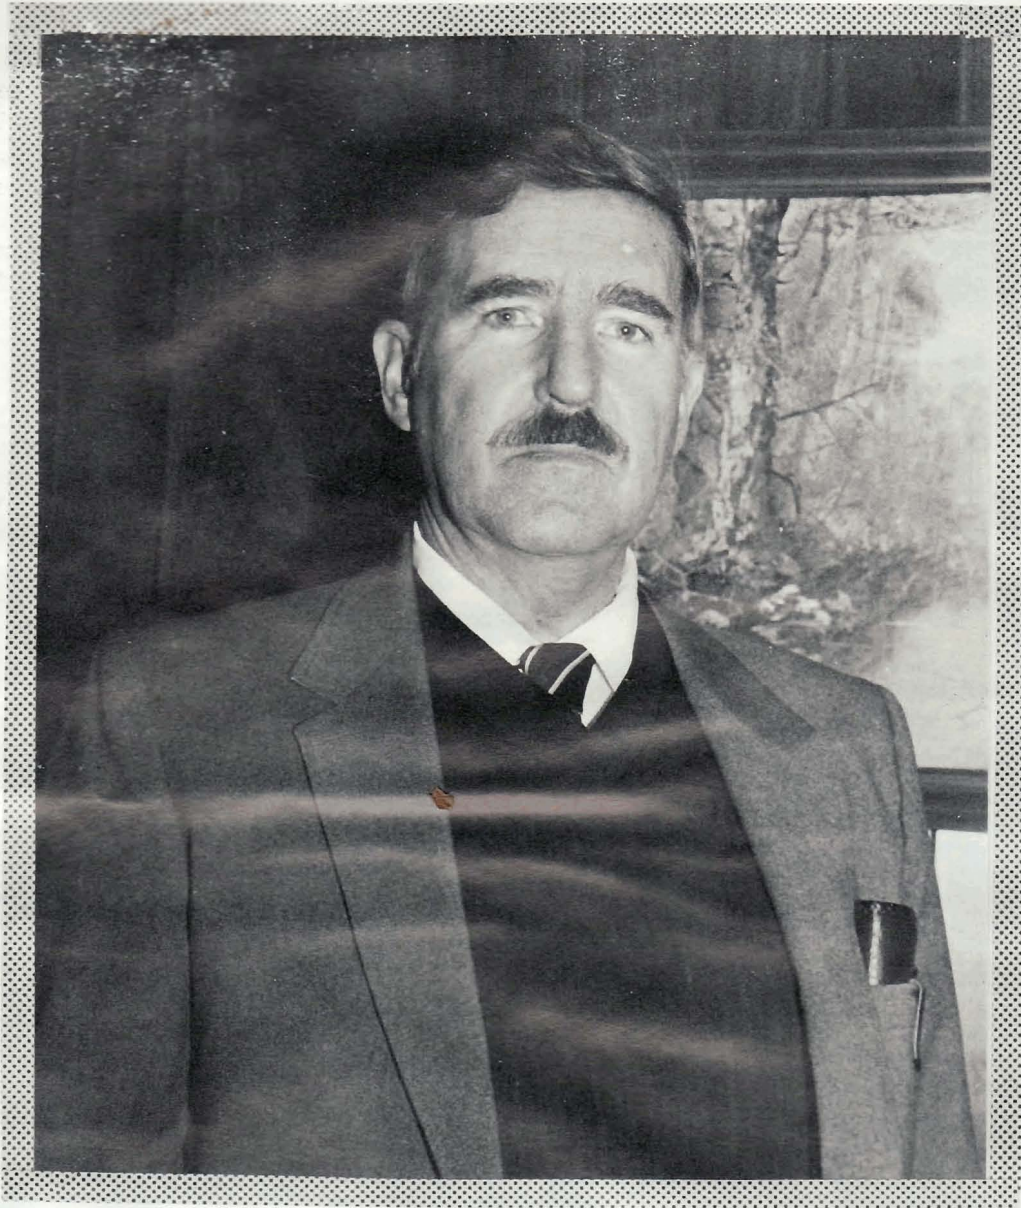

George G. White School

Yearbook -1985

Dedication

In recognition of his thirty-four years of service to the students of Hillsdale, the class of "85" proudly dedicates this yearbook of "Reminiscence" to Mr. Allan Atchison.

His contributions as a teacher of math and physical education, as vice-principal, and principal will be remembered as they will live in the hearts and minds of his friends and former students.

We wish him good health and happiness in his retirement.

ADMINISTRATION

Dear Graduates:

Very soon you will be entering high school. You will be leaving behind fond memories of your elementary education and the George G. White School.

You have been provided with the educational background and skills to succeed. On an individual basis you will be successful at your new schools, if you do two things. First, do your best- keep trying to excel and maximize your abilities. Second, be an active learner - seek understanding and knowledge. Be a person with a desire to "know".

I believe you will be able to meet the educational challenges in your future.

The best of health and good fortune to all of you.

R. N. Sands
Principal

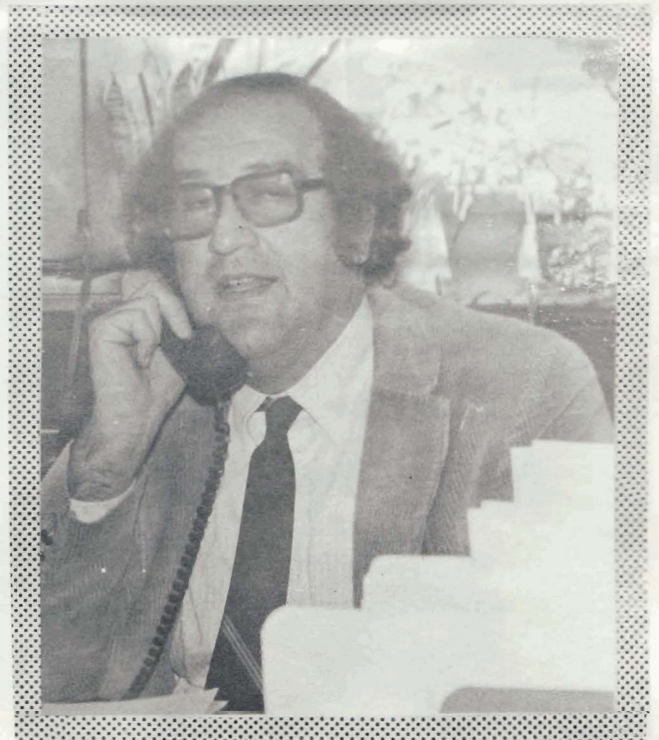

Personal goals have been achieved, friendships developed, successes and failures experienced, and interests pursued, during this initial portion of school.

Upon your entry to high school, the surroundings may change, but you will still be guided by what has been instilled in you by your parents and teachers. The foundation of experiences will guide you to new and varied opportunities which will have a dramatic effect on your development as a total person.

My very best wishes for a rewarding and successful high school career.

Charles P. Maietta
Vice Principal

Superintendent

As you move on to yet another important period in your lives I ask that you remain diligent to your studies. Do not become discouraged when the challenges you face are not easily met. Remain enthusiastic about your life and these challenges. All great people were enthusiastic about what they were attempting to accomplish.

"Nothing great was ever achieved without enthusiasm," wrote Ralph Waldo Emerson.
