You can make a difference by following the 3 R's!

Recycle

Recycle the paper, glass and aluminum you use every day.

Here's what you can do

By recycling one aluminum can you could run a television for three hours!

By recycling your daily newspaper you could save a tree every year!

Re-use

Think about how you could reuse everyday things such as paper and plastic bags, cardboard boxes, glass bottles and jars.

Here's what you can do

Those plastic bags they give you at stores can easily be re-used for future shopping and many other uses at home!

Glass jars and plastic containers make fine storage for any collection. Think of some ways you could re-use these containers.

Reduce

Reduce your use of natural resources by conserving water and energy.

Here's what you can do

By turning off the water while brushing your teeth you could save over one thousand gallons of water per year!

Have your parents place a plastic bottle filled with rocks and water in your toilet tank. This could easily save a family of four over two-thousand gallons of water per year!

Make sure that you turn off the lights when you leave the room!!

We, the undersigned pledge to learn more about the environment and to do our best to make a difference in preserving our earth.
